ADJOURNED TOWN MEETING, MARCH 14, 1935

Meeting called to order at 7.35 o'clock by Moderator O'Connell, Article 8 being in order.

By unanimous consent of the meeting, Frederick W. Murkland offered the following resolution:

A Resolve Concerning the ERA Transient Camp at Camp Curtis Guild.

Whereas, The citizens of Wakefield, in town meeting assembled, believe that the Emergency Relief Administration's so-called Transient Camp, at Camp Curtis Guild, is generally detrimental to the town, and,

Whereas, The welfare and safety of residents and property in the vicinity of the so-called Transient Camp, are threatened by the presence of persons of criminal habits sheltered at the camp, and,

Whereas, Women, living in the neighborhood, are afraid to leave their homes after dark, and some of them fear being left alone in their homes, and,

Whereas, Children, especially girls, are kept indoors during the evening because of fear for their safety, and,

Whereas, Children have been accosted and, in at least one case, pursued by drunken so-called transients, and,

Whereas, At least two known felonies have been committed by so-called transients, and the threat of more serious crimes is imminent, and,

Whereas, Executive officers at the camp are without authority to restrain, discipline or punish offenders, even though the offense be against the good of the camp itself, therefore be it

Resolved (1) That the Board of Selectmen of the town of Wakefield is hereby requested to communicate with the proper federal authorities

with a view to removing the so-called Transient Camp from Camp Curtis Guild, or vesting camp officials with the power to restrain, discipline and punish so-called transients sheltered there.

(2) That copies of this resolve be sent by the Town Clerk to the State Emergency Relief Administrator; to the ERA authorities at Washington, D. C., to the Massachusetts Senators in Congress, and to the Representative from the Seventh Massachusetts Congressional District.

To the Town of Wakefield in the Commonwealth of Massachusetts, five hundred dollars, in trust, to hold and invest the same and apply the income thereof for the purposes of the Public Library in said Wakefield.

ARTICLE 3

Art. 3. To hear and act upon the report of the committee appointed under Article 45 of the Warrant for the annual town meeting of March, 1934, to investigate the purchases and expenditures of the Public Welfare Department for Outside Relief.—George O. Sheldon.

Mr. Sheldon presented report of committee under this article.

On motion by Mr. Tenney.

Voted: That this report be accepted as a report of progress.

ARTICLE 4

Art. 4. To see if the town will vote to transfer the sum of \$460 from the Swain Place Sewer Construction Account to the Sewer Connections Account.—Water and Sewerage Board.

On motion by Finance Committee.

Voted: That all action under this article be indefinitely postponed.

On motion by Mr. Tenney.

Voted: That this meeting be now dissolved.

Adjourned at 8.05 o'clock. Attendance 30.

SPECIAL TOWN MEETING, DECEMBER 9, 1935

In the absence of the Moderator, the meeting was called to order at 7.45 o'clock P.M., by Town Clerk Hartshorne, who read the call for the meeting.

On motion by Mr. Tenney.

Voted: That the reading of the remainder of the warrant, with the exception of the Constable's Return, be waived. Constable's Return read.

The Clerk then called for nominations for a Moderator pro tempore, and the name of Eugene J. Sullivan was presented. No other nominations were made.

On motion by Mr. Clemons.

Voted: That Eugene J. Sullivan be Moderator pro tempore.

ARTICLE 1

Article 1. To hear and act upon a report of the Board of Selectmen laying out a town way under the Betterment Act in substantially the location of the private ways known as Butler Avenue and Grand Passway, running from Water Street northerly to New Salem Street, and appropriate and borrow money to establish and construct the same, and authorize the Treasurer with the approval of the Selectmen to issue notes of the Town therefor, it being expected that part of the cost of construction will be provided from Federal funds.—Board of Selectmen.

On motion by Mr. Clemons.

Voted: To accept and allow the report of the Board of Selectmen referred to in Article 1, laying out a town way under the Betterment Act. Unanimous vote.

ARTICLE 2

Art. 2. To hear and act upon a report of the Board of Selectmen laying out a town way under the Betterment Act in substantially the location of the private way known as Strathmore Road, running northerly and being an extension of Strathmore Road, and appropriate and borrow money to establish and construct the same, and authorize the Treasurer with the approval of the Selectmen to issue notes of the town therefor, it being expected that part of the cost of construction will be provided from Federal funds.—Board of Selectmen.

On motion by Mr. Clemons.

Voted: To accept and allow the report of the Board of Selectmen referred to in Article 2, laying out a town way under the Betterment Act. Unanimous vote.

ARTICLE 3

Art. 3. To hear and act upon a report of the Board of Selectmen laying out a town way under the Betterment Act in substantially the location of the private way known as Swain Court, running easterly from Pleasant Street, and appropriate and borrow money to establish and construct the same, and authorize the Treasurer with the approval of the Selectmen to issue notes of the town therefor, it being expected that part of the cost of construction will be provided from Federal funds.—Board of Selectmen.

On motion by Mr. Clemons.

Voted: To accept and allow the report of the Board of Selectmen referred to in Article 3, laying out a town way under the Betterment Act. Unanimous vote.

ARTICLE 4

Art. 4. To hear and act upon a report of the Board of Selectmen laying out a town way under the Betterment Act in substantially the location of the private way known as Fox Road, running westerly from Jordan Avenue to Mountain Avenue, and appropriate and borrow money to establish and construct the same, and authorize the Treasurer with the approval of the Selectmen to issue notes of the town therefor, it being expected that part of the cost of construction will be provided from Federal funds.—Board of Selectmen.

On motion by Mr. Clemons.

Voted: To accept and allow the report of the Board of Selectmen referred to in Article 4, laying out a town way under the Betterment Act. Unanimous vote.

ARTICLE 5

Art. 5. To see if the town will amend its By-laws by adding thereto the following:

Disposition of property acquired by the town through Tax Title foreclosure:

The Town Treasurer with the approval in writing of the Board of Selectmen is authorized to sell and convey by a sufficient deed such property as the town acquires under foreclosed tax titles.—Board of Selectmen.

Motion by Mr. Clemons.

That the town amend its By-laws by adding thereto the following:

Disposition of property acquired by the town through Tax Title foreclosures.

The Town Treasurer, with the approval in writing of the Board of Selectmen is authorized to sell and convey by a sufficient deed such property as the town acquires under foreclosed tax titles.

A motion by Mr. Dudley to indefinitely postpone was lost.

The action of the town then recurred to the original motion, which was put to vote and declared carried. Affirmative 31. Negative 5.

On motion by Mr. Tenney.

Voted: That this meeting be now dissolved.

Adjourned at 8.20 P.M. Attendance 65.

The year's business for the Board of Selectmen has been abundant, interesting and exacting.

J. Theodore Whitney was appointed as the Board's Agent on all Federal Relief Projects. His duties have included the drafting of projects and general supervision of field work and expenditure of town funds in connection therewith. His salary was placed at \$250 per month beginning April first. His work has been tremendously detailed and somewhat handicapped by lack of authority in various matters. Despite these obstacles he has turned in a splendid performance and one that would be hard to duplicate in any other town.

The ERA Work Program was begun on April 1, 1934, and included a consolidation with the then existent CWA program. The combined purpose was to give relief to needy people through direct or work relief up to the minimum budgetary requirements. Because of long standing laws in the Massachusetts Statutes, no direct relief was ever given except by way of surplus commodities and articles produced by the ERA on work projects. The Federal Government gave money to the Wakefield Administration to put people at work on worthwhile projects.

Over ninety-two projects have been carried on in Wakefield and some completed at a cost of \$233,891.00 from Federal Funds, the administration costing over \$10,000 financed by the Federal Government. The Town contributed materials and paid for trucking and administration to a value of about \$38,000 on these projects.

The largest number employed in a month was about 490 men and women. Surplus commodities were received in the town amounting to 71,596 pounds. Amount of articles received was 8,400 and all were distributed to people on relief as well as to other needy persons. Work rooms produced 37,865 articles of clothing which have also been distributed to relief clients through the commissary in Watertown.

With the inauguration of the WPA the problem in this town has been to shift the work program of the ERA to the Works Progress Administration. Under the latter, men and women who have been on relief between May 1, 1935 and November 1, 1935 are to be taken off the relief rolls and given jobs at security wages. They are no longer considered as relief clients. Those on the ERA in May and also those on Public Welfare and Soldiers' Relief in May are given priority. Those that were certified by the ERA but who were never placed on jobs because the money did not permit their employment, came second and those on Public Welfare and Soldiers Relief from May 31st to November 1st came in the third class. By recent ruling nobody could be put on the WPA who was not on relief prior to November 1, 1935. The WPA superceded the ERA on December 1, 1935 and the total town contribution under the both set ups was about \$43,886.66.

Over 33 WPA projects have been submitted by the Town, and they cover a very wide range of activity.

From an administrative point of view, the ERA and WPA programs are very different. Under the former a local administrator directed the work and was responsible to the State Office.

Under the WPA there will be no locally appointed employees or administrator unless paid by the Town. The work will be directed from a district office which will report to the State office. The sponsor of the projects supervises it, and is generally the head of the Department under which the particular project would normally fall. The top supervision is given by the district office staff in order that terms of the project may be carried out. The Town of Wakefield has a local planning and supervising agent in the person of J. Theodore Whitney who is paid by the Town and not from Federal Funds. The funds of the government are spent according to government regulations. The district office makes the assignment of the workers in co-operation with the United States Employment Service.

The Administration Project not included in the above figure amounted to about \$200 per week.

Early in the year all responsibility for Highway matters was placed in the hands of Harry H. Denning, Superintendent of Streets. This policy has resulted in more efficiency and has left the Board more time to attend to other matters.

During the year, Houston Street was accepted in the usual manner. The following streets have been accepted providing that certain WPA projects are finally accepted by the government: Butler Avenue, Grand Passway, Strathmore Road, Swain Place and Fox Road.

The completion of Butler Avenue and Grand Passway will particularly benefit the town, opening up a large valuable stretch of territory to more rapid development.

The following work has been accomplished with State and County Aid: Salem Street from the Lynnfield Line westerly 500 feet; Vernon Street between Otis and Salem Streets.

The following maintenance work has been accomplished with State and County Aid: Water Street from Melvin Street to Saugus Line; Ab'ion Street, Stoneham Line to Jordan Avenue; Main Street from Salem Street to Lowell Street; New Salem Street about 300 feet.

The permanent construction on the following streets has been done from town funds: Gould Street from Murray to Byron Street; Francis Avenue from Oak Street to Madison Avenue. Houston Street and Walnut Street, were constructed under the Betterment Act, work on Walnut Street having been started in 1934 and finished in June of 1935.

The following were appointed a Committee to carry out the purposes of Article 37 of the Annual Town Meeting of 1935 relating to photographs of Company A soldiers of the World War. Capt. James G. Brown, Major Edward J. Connelly, Arthur J. Walsh, Mrs. Eva G. Ripley, Gray B. Brockbank.

In May it was voted to adopt an eight hour tour of duty for the night patrolmen. This is an important step and one that should have been taken previously.

Police work has been unusually efficient this year. The radio patrol car was hooked up with the Arlington police radio broadcasting station on a free trial to April 1, 1936. We earnestly recommend the purchase of a two-way radio broadcasting equipment which would be more efficient.

Liquor regulations, have, as usual, taken a considerable percentage of the time of the members. Mr. Dinan and Mr. White were appointed as sub-committee to draft a new set of regulations governing liquor sales for 1936. This report was carefully considered by the Board. Various changes were made and the final set of regulations was adopted in ample time for the dealers to become thoroughly acquainted with it. The fees were changed slightly. The regulation to prohibit Sunday sales was received with a great deal of favorable comment from the townspeople as a whole.

The problem of traffic conditions has received considerable attention. Donald White was appointed a committee on traffic by Chairman Fazio. This is a new committee and hopes are entertained that our traffic problems may gradually be solved. A no fixing regulation was adopted toward the end of the year. This regulation does not intend to do away with the customary warnings for first minor offenses but it is a real backing for local police officers who will now feel that enforcement of regulations has the support of the Board of Selectmen.

Representatives of the American Legion and the Veterans of Foreign Wars were invited to confer with the Board the latter part of August in regard to the matter of a WPA project for the erection of a Memorial Building. A committee of veterans was organized to take up the subject.

Early in September a special meeting was held to hear and act upon a report of the above building committee, William Knipe, Chairman. The Committee recommended a lot of land on the North side of Church Street 100 feet east of the Hartshorne house. This land is owned by the town. The Board instructed agent J. Theodore Whitney to take the necessary steps to have plans drawn for a suitable WPA project.

The Moulton Playground land between Albion and Gould Streets has been acquired this year and work has been started on the necessary filling.

The Board has made a formal taking of a lot of land for Park purposes in Greenwood. This land abutted the Greenwood Playground on the south side, being the lot described in Article 35 of the Annual Town Meeting Warrant of 1935.

The Fire Department has had the second largest amount of alarms in the history of the town and have coped with the situation with excellent efficiency.

We recommend the purchase of a piece of fire apparatus to replace a rebuilt truck which has been in the department for the past fifteen years.

There has been at all times an excellent spirit of co-operation between the various town departments. The Board of Selectmen wishes to thank all of them for that good symbol of progress.

To H. A. Simonds, Town Accountant and Clerk of the Board, we extend our sincere thanks and appreciation for the loyalty and the spirit of co-operation and support at all times.

To the Soldiers' Relief Agent, John Findlay, Jr., we express our thanks and whole-hearted appreciation for your support and good will.

Report of Dept. of Public Welfare

To the Citizens of Wakefield:

During the past year the unemployment situation has not shown any substantial improvement in Wakefield. The early months of the year the expenditures of the Department were kept down through the allotments of the ERA. In the latter months of the year, as the ERA was being closed out, and the WPA started, heavy demands came for relief, owing to the fact of short weeks and irregular pay days.

During the first ten months of the year the clerical work of the Department was as great as ever owing to the ERA details, but under WPA, this is being taken care of, in part, by another force.

QUARTERS

The Department is now enjoying enlarged quarters, which have been recently cleaned and painted, and with the additional equipment voted at the last Town Meeting, the work can be carried on to better advantage.

DISTRIBUTION OF WOOD

During the year 1935, the Welfare Department distributed 250 cords of wood. The greater part of this was put out in loads of one-half cord, but during the summer months a portion of the wood was delivered in two-foot loads. This wood was secured in part from the Moth Department, the Municipal Light Department, various ERA projects, and from numerous citizens who contributed trees in response to an advertisement of the Department. The wood given by citizens was cut by Welfare recipients under the supervision of a paid foreman. All of this wood was sawed as an ERA project. The wood was given to Welfare recipients, ERA workers of large families and some to Soldiers' Relief cases at the request of the Soldiers' Relief Agent, acting for the Board of Selectmen. This work is still being carried on by the Department.

DISTRIBUTION OF SHOES, RUBBERS AND CLOTHING

During the year 1935 the Welfare Department distributed 2754 pairs of shoes and rubbers to recipients of aid.

NUMBER OF INMATES MONTHLY

The Town Infirmary has cared for approximately the same number during the past year as in 1934. Among the improvements at the Infirmary has been the enlargement of the dining room as an ERA project. This eliminates the necessity of two sittings for meals. At the present time a WPA project is in progress for the enlargement of the kitchen. During the past year the water piping has been replaced by brass pipe, the expense being taken from the Infirmary appropriation.

DISCIPLINE

Has been good during the year.

RECOMMENDATIONS

I recommend the purchase of a new auto, and the turning in of two now in use, the 1929 Buick sedan and the 1928 ambulance, as the cost of the upkeep of these cars would be prohibitive.

I also recommend one new officer.

I also recommend the two-way radio and equipment.

I have collected \$1,004.00 in non-support cases and have paid the money to the proper persons.

In closing this report I wish to return my sincere thanks to the Honorable Board of Selectmen for the kind interest manifested by them in all matters pertaining to this department during the year.

To Mr. V. Richard Fazio, committee on police, my sincere thanks for his kindly advice during the year.

To each and every other person who has in any way assisted this department you have my sincere thanks.

Respectfully submitted,

JAMES J. POLLARD,

Chief of Police.

Report of Chief of Fire Department

Wakefield, Mass., January 1, 1936.

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my Annual Report of the Fire Department for the year ending December 31, 1935, with the total number of alarms and the losses on same as near as is possible to obtain.

APPARATUS

There are at the present time 7 pieces of apparatus in this department.

One Triple Combination purchased from the Seagrave Co. and placed in commission July, 1924. This piece of apparatus is equipped with a 750-gallon centrifugal type pump, 1250 feet of 2½-inch hose, 80-gallon water tank, 200 feet of ¾-inch hose used as a booster line; salvage covers, two types of cellar pipes, stretcher, first-aid kit, ladders, three types of extinguishers, and much other necessary equipment for an efficient unit.

One Double-bank type 75-foot Aerial Truck purchased from the Seagrave Corp. and put in service December, 1928. Carries 379 feet of ladders, 80-gallon water tank, 200 feet of ¾-inch hose for booster line, booster pump, salvage covers, life net, two oxygen type masks, cannister type masks, one Baker portable type water gun, cellar pipes, water gun with 3-inch hose attached to aerial ladder, oxygen tank for resuscitation work, and other necessary equipment.

One Pierce-Arrow Squad Car which was placed in service in 1926. Is equipped with 1100-gallon water gun mounted, 1000 feet of 1½-inch hose, nozzles and adapters, and various other equipment necessary.

One White Combination put in service in 1920. Equipped with 1000 feet of 2½-inch hose, 35-gallon chemical tank, 200 feet of ¾-inch hose, ladders, four types of extinguishers, salvage covers, and other necessary equipment. This piece of apparatus has been in service for 16 years and is no longer to be relied upon. I would urge that this machine be replaced this year.

One Pierce-Arrow Combination put in service in 1927. This piece of apparatus was built for a reserve piece to replace such other pieces of its type as may be put out of service for repairs. Is equipped with 800 feet of 2½-inch hose, ladders, booster pump and 200 feet of ¾-inch hose for booster line; Eastman deluge set, and other equipment.

One Buick Chief's car purchased in 1929 and which has been a valuable asset to the department's equipment.

One 600-gallon Seagrave Triple Combination put in service July, 1929. Is equipped with 1350 feet of 2½-inch hose, 200 feet of ¾-inch hose, 80-gallon water tank, cellar pipe, salvage covers, smoke masks, ladders, and other necessary equipment. This unit is stationed at the Greenwood station.

During the year the department has responded to 403 alarms, divided as follows: 108 box alarms, and 295 still alarms.

CONCLUSION

In closing this report I wish to extend my sincere thanks to the Honorable Board of Selectmen for the interest and co-operation manifested by them in all matters pertaining to this department.

To Mr. Charles F. Young for the hearty co-operation and interest given by him as Committee on Fire Department during the past year.

To the various other Town Departments who have rendered valuable assistance by their hearty co-operation with this department the past year.

My sincere thanks are also due to the Officers and Members of the Fire Department for the prompt and faithful discharge of their duties.

To Dr. Curtis L. Sopher, Department Physician, my sincere thanks for his valuable aid and interest to members of this department who were injured in the line of duty.

To Mr. J. Theodore Whitney for the interest and co-operation given by him in the planning of projects which made possible much needed improvements at the Fire Station.

Respectfully submitted,

FRED D. GRAHAM,

Chief of Fire Department.

Report of Inspector of Wires

Wakefield, Mass., January 1, 1936.

To the Honorable Board of Selectmen:
Gentlemen:

I herewith submit my Annual Report as Inspector of Wires in compliance with the vote of the Town, 1922.

There was a total of 420 inspections made. All defects found were made to conform with the National Code.

Respectfully submitted,

CHIEF FRED D. GRAHAM,

Wire Inspector.

Report of Board of Health

To the Citizens of Wakefield:

The continuation of a four years' comparison of infectious and reportable diseases seems a proper method of placing before our townspeople a picture of health conditions for that period.

This table to quite a degree explains increases and decreases in public care of these diseases.

	1932	1933	1934	1935
Tuberculosis	13	12	9	16
Diphtheria	2	5	5	0
Pneumonia	16	9	9	8
Poliomyelitis	0	2	1	4
Measles	8	64	89	5
Mumps	3	16	8	2
Chicken-pox	27	10	14	34
Whooping Cough	5	20	6	22
Septic Sore Throat	1	4	0	1
Scarlet Fever	42	11	10	3
Typhoid Fever	0	0	0	1
Influenza	1	0	0	0
German Measles	0	0	0	30
Cerebral Spinal Meningitis	2	0	0	0
Dog Bites	0	0	26	71
Ophthalmia Neonatorum	1	0	1	0
Total	122	153	178	197

Miss Russell, the Health Nurse, made the following number of visits during the year:

Tuberculosis and contacts	602
Whooping Cough	6
Typhoid Fever	5
Chicken-pox	12
Poliomyelitis	12
Measles	20
Venereal	24
Scarlet Fever	9
Investigating Dog Bites	26
Total	716

Miss Russell made the following trips to the different sanatoriums with patients:

25 trips to North Reading State Sanatorium, North Reading, Mass.

1 trip to Essex Sanatorium, Middleton, Mass.

7 trips to Middlesex County Sanatorium, Waltham, Mass.

A continued comparison of the costs of Tuberculosis and those diseases which add most to our cost seems worth while.

	1931	1932	1933	1934	1935
Tuberculosis	\$2,890.77	\$2,327.71	\$3,223.42	\$2,250.99	\$2,198.67

Scarlet Fever	708.87	758.13	89.00	104.62	189.00
Other Contagion	153.10	78.27	351.60	189.30	479.29

The Board of Health in 1935 was confronted with a condition absolutely without precedent. While a State Law passed by the Legislature of 1934 and effective January 1, 1935, placed upon the Boards of Health the payment for vaccine and its administration in cases arising from rabid dogs, and therefore the Board anticipated some increases, the Board could not foresee what was ahead.

Quite early in the year so many cases of rabid dogs had been reported, and the expense of treatment of those actually bitten and those coming in contact with the rabid animals had reached such limits that the Board decided that a clinic for immunization of dogs should be held.

The Board is fully convinced that only by a 100% immunization of all dogs in Wakefield can we be assured of a freedom from Rabies. Unfortunately immunization of dogs is not enforceable, but the Board of Health asks the dog owners to think well upon this need both as a protection of their pets, but more especially the welfare of their neighbors and their children. The Board asks for a 100% response when next a clinic is held which will be in the late spring or early summer.

During 1935 the Board expended for immunization of dogs the sum of approximately \$185.00, and for anti-rabic treatment of humans approximately \$1,125.00. While it may seem to some that treatment of all contacts is unnecessary, who is to say which presents possibilities of fatal results when it is known absolutely that a bite from a rabid dog is not the only fatal cause, but death may follow an untreated case where a person has come in contact with the saliva of a rabid dog.

Through the continued work of Dr. Charles E. Montague, the School Physician, the work of immunization against Diphtheria has continued among the school children, and the only expense of the Board chargeable to this once dread disease, has been in providing equipment for such immunization and cards for recording. This Board now has a full card file of all cases immunized by the School Physician since the work was begun several years ago.

It should also be added that the Board has a card file of all licensed dogs immunized at the clinic in 1935.

The Board of Health would especially note the manner in which the three public dumps have been kept the year past. We feel that the Board and the town has a most efficient servant in the person of Mr. Joyce.

The Board of Health earnestly asks the townspeople to deposit their ashes and rubbish, not including garbage, at one of these dumps where disposal of such refuse is made.

The attention of the townspeople hardly needs to be called to the generally unsatisfactory condition of garbage collection for the latter part of the year 1934. The Board was very fortunate under the conditions to get someone who would assume the old contract and give the town as satisfactory collections as we have had during 1935.

The Board feels that the town will have to pay more in the future than it has in the past for a satisfactory collection of its garbage.

Tuberculosis Dispensary Report

To the Wakefield Board of Health:

Gentlemen:

The annual report of the Tuberculosis Dispensary is herewith respectfully submitted.

The Tuberculosis Dispensary is open the first and third Friday evenings in the month from 8 - 9 and the second and fourth Tuesday afternoons in the month from 3.30 - 4.30.

We have examined during the year, patients discharged from sanatoria contact cases and suspicious cases of tuberculosis. Ninety-two examinations were made.

A certain amount of follow-up work has been done for these patients. Thirty-two adults were taken to the North Reading State Sanatorium, and to the Middlesex Sanatorium for further examination of chest and to be X-rayed, and sixty-two children were taken to North Reading Sanatorium for chest examinations, X-rays and Von Pirquet tests. On the discovery

of a new case of tuberculosis, if active, efforts are made to have the patient hospitalized and if possible to have all the members of the family examined by the family physician or at the clinic.

We feel it is important to hospitalize all active cases, not only that immediate and proper care should be given, but that a known case of infection may be removed.

In the last ten or twelve years we have come to recognize the insidiousness of tuberculosis. While the disease is most commonly found in adults between the age of eighteen and twenty-five, it actually lays its foundation in early childhood, many years before it becomes manifest. As a rule we all react perfectly well to a first infection with the bacilli of tuberculosis, providing the dosage is not too great or overwhelming, and seldom does the first infection leave any impression on our health.

We now know that tuberculosis, or the adult type of tuberculosis is usually caused by reinfection, and that the disease is not usually caused by the first invaders. However, and herein lies the significance of the childhood type of tuberculosis, should the same child at any future date receive another dose of these bacilli, they will grow and flourish better in the lung tissue than did the first invaders, and the adult type of tuberculosis is likely to develop.

We have at the present time five patients at the Middlesex County Sanatorium, and two patients at Lakeville State Sanatorium.

Sixteen new cases of tuberculosis were reported in the year 1935, and there were two deaths.

Report of Health Officer

Board of Health:

Gentlemen:

I hereby submit my report for the year ending December 31, 1935.

The work of this Department is about the same year after year. Many complaints come in, some of which are without foundation, but all must be investigated.

The work on the public dumps during the past year has been done by Mr. John Joyce, under my supervision. He keeps them in very good con-

dition and I have inspected the dumps in several other towns, and found none kept in any better condition than the Wakefield dumps.

We wish our citizens would take their rubbish to the dumps instead of putting it on the side of the streets or vacant lots. This would keep our town more attractive.

We have had numerous complaints about over-flowing cesspools. We usually try to get the owners of these cesspools to connect with the sewer if sewer is available.

I have made 643 calls during the year.

Respectfully submitted,

DAVID TAGGART,

Health Officer

Report of Inspector of Milk and Food

To the Board of Health:

Gentlemen:

I herewith submit my report as Inspector of Milk and Food for the year ending December 31, 1935.

The work of this Department during the year has been marked by more and varied activities than usual.

The results as shown by the milk, cream, and ice-cream analyses covering this period have been most satisfactory. Today the local consumer is enjoying milk at the lowest price which in many cases meet Grade A requirements or better.

In view of the above it would now appear that the milestone has been reached that was the objective of the Board of Health nine years ago when the Board determined to lay the foundation for a future safer, and more nutritious supply of this most essential food. Let it be mentioned at this time that today's findings are in no small measure the results of a far-seeing, conscientious effort on their part.

There are over 8500 quarts of milk consumed daily in Wakefield. When this is considered one may readily see that adequate protection for a town's milk supply is quite significant. In reality second only to its water supply.

The largest number of licenses in any one year were issued from this office in 1935. The largest amount of revenue was also reported, amounting to nearly 100% more than on my first year in office. In like manner the greatest number of milk plants and dairy farms were inspected. The latter calling for much out of state work.

With this increase in number of retailers and outside dealers distributing the town's milk supply, as well as changing regulations having increased the kinds and standards of milk quality it must be apparent to your Board that the future carrying on of this work, with the small funds available for the purpose, presents no ordinary task.

The above situation should be of no little concern to the community, as much of the health and well being of the people are dependent on this source, especially during these most stressful times.

As regard the food inspection work it has been largely confined to complaints all of which have been taken care of satisfactorily.

As in the past it has been along the line of duty to attend a number of conferences during the year. Notable among these this season were ones at Worcester, Fall River, and the Massachusetts State College at Amherst. The work of the conference, large conducted under the De-

partment of Public Health and Agriculture is educational in scope. The results are reflected in the necessity of keeping abreast of constantly changing conditions.

The following are the details of records:

Retail Licenses issued	84 @ \$.50	\$ 42.00
Wagon Dealers Licenses issued	33 @ .50	16.50
Oleomargarine Permits issued	21 @ .50	10.50
Ice Cream Mfg. Licenses issued	3 @ 5.00	15.00
Pasteurizing Licenses issued	3 @ 10.00	30.00

\$114.00

I take this opportunity to thank the members of your Board for their faithful co-operation.

Respectfully submitted,

LAWRENCE E. DOUCETT,

Inspector of Milk and Food.

Report of Town Counsel

Wakefield, Mass., January 14, 1936.

To the Honorable Board of Selectmen,
Wakefield, Mass.

Gentlemen:—As town counsel I make the following report for the year 1935.

Exceptions pending in the Supreme Court at the end of 1934, taken in the trial of five automobile-highway cases, known as the Zacharer cases, were sustained early in 1935, and final judgments in favor of the town were entered, and costs to the town of \$100.00 collected. In these cases the jury awarded the plaintiffs in the aggregate \$2,300.00, which by the decision the town saves. There were also two other cases brought arising from the same accident, which happened on Lowell Street, and after the decision was handed down these last two cases were also disposed of without trial, in the town's favor. Besides the saving to the town the decision was of great value in establishing that municipalities are not liable for the ordinary wear at the edge of the macadam of a way even if it becomes ragged as it was in the present instance.

In one case tried at Malden for injuries at a crosswalk on Main Street, the court awarded the plaintiff \$310.00. In another case, there, for damages at an alleged defect in the sidewalk of Main Street, the court found for the town and on appeal by the plaintiff the finding was sustained. In an action of contract against the town at Malden a counterclaim was filed and a finding for the town of \$265.00 was made, of which \$100.00 has been collected.

One accident case, on a highway, was settled for \$100 paid by the town, and another for \$15.

Three tax appeal cases were tried with abatements in small sums ordered for the petitioners.

One compensation case was settled for \$200 after hearings at the Compensation Board, the compensation agent and department concurring.

Collections have been made for several departments. Many titles have been examined in connection with acquisition of Greenwood and Moulton playgrounds. Street lay-outs and takings have been drawn and recorded.

Hearings have been had in connection with the equity suit to restrain pollution in Stoneham of the water shed of Crystal Lake. A stipulation filed therein requires all pigs to be removed from the defendant's premises in April of this year.

Several cases have been brought the last year for damages from highway defects and there are now pending some nine cases, some quite old.

There are two tax title foreclosures brought by the town, and one tax appeal pending. Also three petitions for assessment of damages for taking of easements for street relocations.

Many opinions, oral and written, have been given to the departments and officers of the town. My weekly attendance with your board has been

very pleasant and I thank you for the friendliness which has made my thirty-fifth year as town counsel very agreeable.

Respectfully submitted,

MAYNARD E. S. CLEMONS,

Town Counsel.

Report of Supt. of Moth Dept.

Wakefield, Mass., Jan. 1, 1936.

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my report as Superintendent of the Moth Department for the year ending December 31, 1935.

We found about five percent more Gypsy Moth nests and ten percent more Elm Leaf Beetle in 1935 than we did in 1934. The Brown Tail, Satin Moth and Fall Web Worm are the same as last year. We found no trace whatever of the Dutch Elm Disease in the town.

We have been obliged to cut down 60 shade trees on account of the ERA where they have widened the street or put in cement sidewalks. We also removed 25 more that died from various causes.

We planted 55 young trees along streets where they were most needed. The Garden Club bought and gave us 30 of these trees to plant on streets where we saw fit. The other trees were grown in our own nursery on Broadway.

We spent \$2,444.14 for moth work, \$1,613.03 for spraying and \$1,562.58 for trimming and cutting down trees.

For other expenditures and appropriations of this department see Town Accountant's Report.

Respectfully yours,

JOHN A. LANDRY,

Supt. of Moth Department.

Report of Inspector of Buildings

\$156.50 in permit fees has been collected and turned into the Town Treasury.

Respectfully submitted,

JOSEPH W. MacINNIS,

Building Inspector.

Report of Compensation Agent

January 2, 1936.

To the Honorable Board of Selectmen,
Wakefield, Mass.

Dear Sirs,

There were 34 Compensation cases in 1935 requiring an expenditure of \$1,522.39 out of an appropriation of \$2,500.00. \$334.00 was paid out of 1935 appropriation on account of 1934 bills. This makes a total expenditure of \$1,856.39 out of the 1935 appropriation.

Highway Department	15 injured
Moth Department	1 injured
School Department	3 injured
Water Department	13 injured
Sewer Department	2 injured

Total 34 injured

One man who has been on Compensation since 1930 received \$619.71 in 1935, which closed the case as the \$4,500 awarded him by the Industrial Accident Board had been paid by the Town.

One man will receive \$9.00 per week until he has received \$4,500.00 settlement agreed upon by the Industrial Accident Board.

There were no cases before the Industrial Accident Board in 1935.

Respectfully submitted,

JOSEPH W. MacINNIS,

Compensation Agent.

26th Annual Report of the Wakefield Water and Sewerage Board

The Wakefield Water and Sewerage Board presents herewith its annual report, covering operations of the Department for the year ending December 31, 1935.

As in years past, Crystal Lake has been under the supervision of Weston and Sampson, the Department's consulting engineers.

Lake Quannapowitt received two treatments of copper sulphate, on the following dates: July 19 and August 9.

Under an ERA Project, plans were drawn up for a permanent building at the Department's wells on Nahant Street.

Projects for laying water mains in the following streets were made up and sent into WPA headquarters for their consideration:

Melvin Street	Essex Street	Kendrick Road
Salisbury Road	Norway Street	Harrison Avenue
Charles Street	Cumberland Road	Kingmont Street
Sheffield Road	Holland Road	Kendrick Court
Vale Road	Brook Street	

The Board felt that it would be a number of years before the Department would be in a financial position to do this work in the outlying districts, as the cost would be excessive, due to the removal of a great amount of ledge.

We also have sent in figures for new water mains in Butler Avenue

and Strathmore Road under a WPA Project, as it is proposed that these streets be rebuilt during the coming year.

It has been found that the number of main breaks has been noticeably reduced during the past year, due to the extensive re-laying done under the PWA Project by this Department in 1934.

The Superintendent's report which follows gives in more detail information as to construction, improvements and so forth, which will be of interest to the town.

SUPERINTENDENT'S REPORT

To the Water and Sewerage Board:

I respectfully submit the following report for the year ending December 31, 1935:

WATER CONSTRUCTION

On right of way easterly from Woodland Road, 103 feet of 2" wrought iron pipe.

Mountain Avenue, from Fox Road westerly to dead end, 102 feet of 2" wrought iron pipe.

Fox Road, from dead end across Mountain Avenue, 17 feet of 6" cast iron pipe.

Evergreen Street, from Laurel Street southerly to Hawthorne Street, 318 feet of 6" cast iron pipe.

Hawthorne Street, from dead end westerly to Evergreen Street, 121 feet of 6" cast iron pipe.

WATER RECONSTRUCTION

Walnut Street, from West Chestnut Street southerly to Gould Street, 660 feet of 6" cast iron pipe.

Frank Street, from the Gould Street main to the Frank Street gate, 10½ feet of 1¼" cement lined pipe.

Chestnut Street, at intersection of North Avenue westerly from West Chestnut Street gate to cast iron pipe under railroad track, 43 feet of 6" cast iron pipe.

Salem Street, from Marion Street, so-called, easterly to 100 feet east of easterly side of Walton Street, 822 feet of 8" cast iron pipe.

Fellsmere Avenue, from Esmond Avenue southerly to Ludlow Avenue, 95 feet of 1" cement lined pipe.

NEW HYDRANTS

Walnut Street, opposite No. 7, 5" Corey hydrant.

Salem Street, opposite Houston Street, 5" Corey hydrant.

RELOCATED HYDRANTS

Hydrant No. 71, from Salem Street near Montrose Depot, to northerly side of Salem Street, opposite No. 327.

From north side of Salem Street opposite Walton Street, to south side of Salem Street corner Walton Street.

HYDRANTS BROKEN BY AUTOMOBILES

January 17, 10.35 a.m., Main Street opposite No. 712. Replaced with 5" Corey hydrant.

August 4, 6.45 a.m., North Avenue corner Chestnut Street; replaced with 5" Corey hydrant.

PERMANENT IMPROVEMENTS

The coal shed at the pumping station on Broadway, has been thoroughly repaired and a wooden partition has been installed across the shed whereby the winter supply of fuel can be stored in the westerly end of the building, leaving the remainder of the same for storage purposes.

A new half-ton Dodge truck has been purchased to replace a Dodge coupe, bought in 1928.

WATER SUPPLY

Crystal Lake, Wakefield's water supply, is still retaining its usual good quality and on December 31, 1935, the elevation of the lake was fifty-four inches below high-water mark, which is extremely low for this time of year. The lowness of the lake is due to lack of rainfall during 1935.

FILTRATION PLANT

During the year 1935 the filter plant has functioned as usual and has produced water of excellent quality.

It was necessary during the year to scrape the impurities from the top of each filter 11 times.

LOW LEVEL SEWER SYSTEM

The low level sewer system and pumping station has given excellent service during 1935 and has required no expensive repairs other than one new pump casing which will be installed as soon as possible.

SEWER MAINTENANCE

The entire sewer system including the low level system has been inspected twice during the year and also thoroughly brushed and cleaned.

It was necessary to replace, raise or lower a considerable number of manhole covers and frames due to changes in street grades in the course of the year.

Because of settlement in the force main under the brook in Valley Street, it was necessary to uncover the pipe and recaulk the old joints. Part of this settlement was caused by the ERA Project in cleaning the brook.

SEWER CONSTRUCTION

An eight-inch sewer was constructed across 207 feet of private land from Salem Street to the easterly end of Swain Place; also in Swain Place westerly for a distance of 250 feet. A six-inch underdrain was laid under this sewer to assist in drying up the adjacent land in Swain Place.

WPA PROJECT FOR SURVEYING UNSEWERED SECTIONS OF WAKEFIELD

On September 9, 1935, the Water and Sewer Department applied for a WPA Project to survey the unsewered sections of Wakefield and on November 16 this project was approved and work started. This project is composed of a civil engineer, a draftsman and two rodmen. When this work is completed the Department will have a complete working plan of proposed sewers in the above-mentioned sections of the town.

SEWER CONNECTIONS

Applications for house connections to date	1805
Number of connections made	1695
Number of connections made during year	45
Number of connections waiting	0

In conclusion I wish to extend my sincere thanks to each and every member of the Department for their co-operation in all emergencies during the year.

I also extend my thanks to the heads and members of the various town departments for their support and co-operation during the year.

Respectfully submitted,

MORRISON MERRILL, Superintendent.

Report of the Municipal Light Board

To the Citizens of the Town of Wakefield:

We submit for your consideration the forty-second annual report of the Municipal Light Board covering the year ending December 31, 1935.

The operations of the Department resulted in a net profit, after deducting debt retirements, of \$23,145.63, as compared to a profit of \$35,371.43 in 1934.

Two changes in rates were made during the year. The change effective January 1, 1935, reduced the gross rate on lighting by one cent per K. W. H. thus reducing the discount from 2c to 1c per K. W. H., the change having no effect on the net rate to the consumer. On May 1, 1935, the gas rate was reduced from \$1.70 to \$1.60 per M. C. F. gross, resulting in a net rate of \$1.35 per M. C. F., as compared to \$1.45 per M. C. F. At the same time the rate for residence and commercial lighting was reduced by ½c per K. W. H.

These changes in rates and a decrease of approximately 6% in the cubic feet of gas sold resulted in a decrease in profit.

The balance of our Operating Fund is \$23,751.88 as compared to \$45,600.85 in 1934, the decrease being due to decreased sales and an increase in expense.

We furnished the town with street lights for \$18,000.00 and will ask the town for the same amount for this service during 1936.

The report of the manager showing the financial condition of the plant as of December 31, 1935, and its operations for the year, is included in this report.

The books of the Department are being audited by C. O. Huntington and Company, Certified Public Accountants.

Respectfully submitted,

MARCUS BEEBE, 2nd, Chairman
A. FRANCIS HARRINGTON, Secretary
CURTIS L. SOPHER, M. D.

Board of Commissioners
Municipal Light Department

January 2, 1936

To the Board of Light Commissioners,

Town of Wakefield, Massachusetts.

Gentlemen:

I submit herewith a report of the activities and operations of the Light Plant for the year ending December 31, 1935.

GAS SALES

The net sales of this section amounted to \$105,181.88, the operating expense \$98,297.51, and a net income of \$5,296.52 for 1935. In 1934 the figure was \$8,742.65.

ELECTRIC SALES

The net sales of this section amounted to \$188,718.65, the operating expense \$157,583.48, and a net income of \$27,849.11 for 1935. In 1934 this figure was \$36,628.78.

BONDED DEBT

This account has been reduced from \$89,000.00 on January 1, 1935, to \$79,000.00 as of January 1, 1936.

PROPERTY AND EQUIPMENT

Plant investments and general equipment have been increased \$51,870.01, of which a part is the continuation of the project of 1932 for underground transmission and distribution in Chestnut Street, west of the railroad crossing to Prospect Street and in Park Avenue from Chestnut Street to the Stoneham line. This work is in progress and when completed it is expected to provide forty-five street lights on ornamental poles and three-wire service to each and every house along these streets. This work is fast approaching completion.

The usual inspection and replacement of defective poles has been carried on during the year; with the necessary changes of construction; both by this Department and the New England Telephone Company, according as to whom was charged with the custody of the pole.

Several new manufacturing companies have taken leases to parts of the Heywood Brothers and Wakefield Company's buildings and were given service sufficient for their demand.

In co-operation with the town section of the NRA work, electric stoves and a refrigerator were borrowed from the General Electric Company and set up for recreational work in the conduct of cooking classes, sponsored by the Edison Electric Illuminating Company of Boston.

In connection with the NRA sidewalk and curb building, much relocation of poles and some underground duct lines and gas mains has been done.

As in other years, at Christmas time, the Department has furnished

the current and paid for the decorating of the light poles in the business sections of the town including Greenwood.

By arrangements with the Reading Electric Light Department, five street lights have been installed on Bay State Road. This Department is not equipped with pole line on Main Street to reach this street, but does own the poles, so that similarly to the present arrangement for commercial current, the Town of Reading furnishes the lighting current.

The constant increase from year to year of electric current, and notably so during the past year, by reason of the demand by manufacturing interests, warranted the purchase of a new station type high voltage transformer. This piece of equipment was placed in position at the sub-station shortly before the end of the year, and the work of connecting it to the present lines is in progress. The equipment necessary for this entailed the purchase of several special pieces of electrical apparatus for installation inside the sub-station.

Early in the year the Brockway truck broke down and major repairs had to be made. As this Brockway truck has been in constant service for ten years, these repairs were not considered trustworthy and a new Dodge truck of modern construction and equipment was bought as a replacement for regular construction work. The Brockway chassis and cab have been retained for auxiliary work in connection with cable laying and such light hauling as may be required.

As of May 1, 1935, the Board was authorized by the Department of Public Utilities to make a reduction in rates for gas and electricity: 10c per 1000 cubic feet on gas and $\frac{1}{2}$ c per kilowatt hour for electricity.

A total of 9500 linear feet of gas main has been extended or replaced during the year. New mains and services have been laid in the recently annexed area in the Greenwood section and several connections have been made in the west side of the town to complete circuits.

All the buildings at the plant have had one coat of paint on the outside. A fence has been built enclosing the area north of the holder and a sign reading "Wakefield Municipal Light Plant" erected on top of the main building.

It is recommended that changes be made in the Sub-station for further regulation of the commercial circuits by the addition of two modern induction regulators or some other device to accomplish the same result. At present there are five circuits on three switches. It is recommended that changes be made in the circuits so that the present lines will be divided and more switches provided for the additional load.

Switch gear should be provided so that number three commercial circuit can be put over on the transfer bus in case of trouble.

It is recommended that some provision be made for heating the main switchboard room, other than that attempted sometime ago and since abandoned as inadequate as well as very expensive.

It is further recommended that in view of the acceptance of the town of Swain Place and Butler Avenue and part of Grand Passway as town ways, the gas and electric lines which now exist in part of these ways, be extended and replaced, as the case may warrant, to agree with the lines of the new lay-out.

There are numerous small pipe mains which could be re-laid to a larger size. The six-inch main in Albion Street is a cast iron main in use since the days of the private operation of the Plant. The pipe from the railroad crossing to Jordan Avenue is known to be out of line and out of grade and if not replaced should be dug up and re-laid true to line and grade as the cement joints have undoubtedly developed leaks that, though not large, are a constant loss.

Respectfully submitted,

SAMUEL H. BROOKS, Manager.

Municipal Light Department.

January 2, 1936.

FIRE ALARM, POLICE, AND TRAFFIC SIGNALS

To the Municipal Light Commissioners,
Town of Wakefield, Massachusetts.
Gentlemen:

The operation of these systems is undertaken by this Department because there never has been any set-up to handle these affairs either for

supervision or equipment except that maintained by the Light Department, electric section, and to the present time no adverse criticism has been made public.

All of these systems have functioned during the year, but not altogether satisfactorily. The old cable of the fire alarm from the Central Fire Station to the whistle at the Works has had to be replaced, and the traffic light cable at Greenwood has been renewed. Other than local box trouble the Police Signal has operated properly.

As anticipated, the town approved the purchase and installation of a new switchboard, cable for circuit connections, and appurtenances for the Fire Alarm. This installation was completed shortly after the beginning of the year. The new switchboard operates with a system of relays, which disposes of the necessity of the purchase of a new ten circuit machine called a repeater, and is much more positive and reliable. The old five circuit repeater has been salvaged and will be disposed of if a purchaser is found.

A cable of thirty conductors leads underground from the switchboard at the Central Fire Station to the distributing frame in the cable box at fire alarm box No. 35. From there, six conductors lead underground to the fire whistle at the Works and to the boxes en route and twenty conductors lead underground from Box 35 down Main Street to the distributing frame in Box 12.

All boxes have been re-timed so that the box alarm to the fire station comes there at one second intervals between blows and is sent out to the whistles, bells, and tappers at a slower speed. This allows the apparatus to get away much quicker and before the whistle sounds the box number.

The Fire Alarm signal system is operated on direct current from batteries by what is known as a closed circuit. This is done so that it shall at all times be ready for instant action. The closed circuit is under constant supervision both in the fire alarm station and the wires outside, connecting the boxes, for if anything happens to cause an interruption of the circuit the bells, tappers, whistles and connections to mutual aid stations instantly sound an alarm and the maintenance crew is out at once to locate the break.

It is recommended that six additional fire alarm boxes be purchased and installed this year. These should be of the non-interfering successive ringing type and replace older boxes of the type known as sector boxes. The non-interfering box is so arranged that in case of fire and alarms are pulled from two boxes in the vicinity, with the non-interfering type, whichever was the last to be pulled will not send in its signal until the box first pulled has completed its duty; so that although two boxes may be sent in for the same fire, the signals will each come to the fire station distinctly and the confusion of jumbled ringing will be stopped.

This Department now has on hand a complete Police signal station which can be placed in commission when and where seems most necessary.

Some of the aerial fire alarm circuits of a single wire are too long, noticeably that in the extreme south part of the town taking in Boyntonville and Tamworth Hill section and the center section of Greenwood. This should be a two-wire line through the Boyntonville section with lateral loops to offset boxes in Spring Street and Myrtle Avenue and so back to the Oak Street section through Greenwood Avenue to the Tamworth Hill section.

It is further recommended that all outlets to aerial lines from underground be protected by fuses and lightning arrestors.

Respectfully submitted,

SAMUEL H. BROOKS, Manager.

Municipal Light Department.

January 2, 1936.

Report of Town Planning Board

To the Honorable Board of Selectmen,

The Town Planning Board reports its activities for the year 1935 as follows:

In preparation for the Spring town meeting the Board held public hearings on several articles proposing changes in the Zoning By-Law and made its recommendations to the Town Meeting.

The Board has co-operated with the Planning Boards of Stoneham and Reading in advocating to the State Department of Public Works the building of the Stoneham-Reading major by-pass. Again the Board has been represented on a committee made up of representatives of all Planning Boards along the route of the north circumferential highway and formed to co-operate with the State Planning authorities in the location of this highway and to insure a uniform zoning of its use.

The Board expresses its appreciation of the services of Leon Reed who felt it advisable to resign from the Board.

Respectfully submitted,

TOWN PLANNING BOARD,

E. M. BRIDGE, Chairman.

E. R. A. and W. P. A.—Highway equipment such as trucks, tractors, stone crusher, gasoline shovel, rollers, cold patch mixer, etc., were used on government projects. No charge was made for the use of the equipment, but the operators' time was charged against the highway appropriation, and amounted to \$1,090.46.

REBUILDING

Gould Street (Murray Street to Byron Street)
 2800 lin. ft. x 24 ft. wide.

The surface of Gould Street was poorly graded so that surface water stood for long periods and passing cars splashed pedestrians. It was also cut up considerably on account of the installation of gas and water pipes.

New drainage was installed; then the surface was scarified, reshaped with new gravel and topped with three inches of crushed stone and penetrated with bituminous asphalt.

New curb was installed on the four corners of Byron Street in accord-

ance with the new County Commissioners' layout.

I have recommended that the remaining stretch of Gould Street, from Byron Street to Albion Street, be done next year.

The cost of the work was as follows:

HOUSTON STREET

A section of Houston Street was laid out and accepted by the Town on February 27, 1935.

Every Spring this street was always a source of trouble to the abutters on account of the muddy and unstable condition of the roadway.

Our first operation was to excavate an average of 12" of mud and clay and backfill with good coarse gravel. Concrete curbs were then installed, and three inches of crushed stone penetrated with asphalt was laid. Asphalt sidewalks with a planting space were then built.

CHAPTER 90 WORK

Allotments were received from the State and County to assist the Town in rebuilding the following streets:

Vernon Street—from Otis Street to Salem Street, a distance of 2100 feet

in length, and 30 feet in width.

Appropriation by Town	\$ 5,000.00
Allotment from State	6,647.49
Allotment from County	2,215.82
	<hr/>
	\$13,863.31
Expenditures	13,281.60
	<hr/>
Balance	\$ 581.71
Balance Due from County	276.98
	<hr/>
Total Balance	\$ 858.69

Salem Street—from the Lynnfield line, a distance of 400 feet in length, and 30 feet in width. Rebuilding bridge at the line was included. In widening the roadway from 20 feet to 30 feet, it was necessary to excavate peat on both sides of the existing road to an average depth of 12 feet and back-fill with coarse gravel.

Appropriation by Town	\$2,000.00
Allotment from State	3,396.37
Allotment from County	1,698.18
	<hr/>
	\$7,094.55
Expenditures	6,790.42
	<hr/>
Balance	\$ 304.13

Chapter 90 Maintenance—This is the first year that the State and County has helped the Town on maintaining Chapter 90 roads. This work consisted of applying seal coats, gravelling and tarring shoulders. The following streets were so treated:

Water Street (from Melvin Street to the Saugus line)

Main Street Lakeside (from Salem Street to Lowell Street)

Albion Street (Mountain Avenue to Stoneham line)

New Salem Street

Appropriation by Town	\$1,000.00
Allotment from State	848.75
Allotment from County	848.75
	<hr/>
	\$2,697.50
Expenditures	2,546.25
	<hr/>
Balance	\$ 151.25

CHAPTER 464 BOND ISSUE ACTS OF 1935

This money was appropriated by the State to be used for the unemployed labor, the purchase of material, trucking, rental, on government projects. The Town is using this fund for the purchase of cement, lumber, stone, sand, calcium chloride, nails, etc., on W. P. A. cement sidewalk and cement curbing projects.

Allotment from State	\$5,633.57
Expenditures	4,346.97
	<hr/>
Balance to be used in 1936	\$1,286.60

It will be noted that on Chapter 90 work, a substantial balance was left on Vernon Street, Salem Street, and Maintenance. After the allotments were made, including that of the Town, the State and County decided to decrease their allotments 15% to cover the engineering expenses. I felt that the Town's share should be decreased a like amount—otherwise we would be spending Town money without receiving any assistance from the State and County.

Respectfully submitted,

HARRY H. DENNING,

Superintendent of Streets.

REPORT OF LIBRARY TRUSTEES

For the Year 1935

The Trustees of The Lucius Beebe Memorial Library herewith submit the eightieth annual report, for the year 1935.

It is with increased respect for the vision and energy of those men who so many years ago started a library for the people of Wakefield that the Trustees review the work of the eightieth year of its service. In contrast with the present building, its equipment and its staff, those early beginnings seem very small but what they meant in the enrichment of community life and in the extension of mental horizon of the boys and girls of the period cannot be measured. With a feeling of gratitude toward its founders and all who have worked for its success throughout the years, the Trustees again resolve that the Library shall continue the high ideals which have always marked its development.

The Library consists of many more activities than the circulation of books, the one most commonly recognized. On its shelves, in one form or another, are the answers to many questions and it is the duty and pleasure of the staff to make that information available. Reference work for the schools is given very careful attention. When the teacher, in making a lesson assignment, notifies the Library in advance, then much material on the subject can be collected and placed on shelves where it is reserved for those especially interested. Many calls for information on highly specialized topics are made by business men and if the Library cannot supply this demand oftentimes books are borrowed from more technical libraries.

Because of its commuting accessibility, Wakefield has many students in the various colleges and schools for special training in greater Boston, who live at home. This means that it is more convenient for many of these students to use The Lucius Beebe Memorial Library instead of that of the college; and thereby we are able to be of service to them both in reference work, and in the outside reading so widely demanded in the current methods of teaching.

The small study clubs of which there are many in Wakefield depend upon the Library for the material used in the preparation of their programs and here again the staff is able to co-operate in many helpful ways.

In the balcony and in the Lecture Hall there have been many exhibits which have been entertaining as well as instructive. One of the best was that of Book Week, when books for boys and girls were on display in the balcony. Books of an earlier day loaned by Mrs. Greenleaf Goodale and Miss Grace White were on display, too, and the contrast between those and the current children's books made more than one observer say, "What beautiful books children have now! I'd like to read them all."

The Wakefield Garden Club invited the Library to have an exhibit at their Flower Show in June and accordingly Miss Carleton and her staff arranged a very inviting display of Garden Books on a table and book truck and with the addition of two or three chairs and some flowers made

a most inviting nook where many paused to acquaint themselves with the garden collection. A member of the staff was at all times in attendance to answer questions.

As in every other line of endeavor, the Library thrives on the right kind of advertising. The displays already mentioned are one method. Another especially appreciated by library patrons is the issuing of lists from time to time. Among those of this year might be mentioned one of historical novels, another of garden books, and still another about amateur theatricals. Lists for little folk and one for older boys and girls were given out to school children at the close of school so that they might be used for summer reading. These lists were especially helpful.

Still another phase of advertising is carried on in the special collections displayed in the cases just inside the front door. They are changed frequently and always an attractive poster above the book-case tells the subject of the collection. These posters are made by one of the staff, Miss Clara Wilson, who shows great ingenuity and versatility in their preparation.

In addition to the methods already mentioned, the Library column in the Wakefield Daily Item has been continued throughout the year. In accordance with the helpful suggestions of a patron, once each month the column has contained a list of the new accessions.

Through the kindness of Mr. Charles W. Hodgdon, proprietor of the Wakefield Theatre, the Library has been able to co-operate in informing the public of books related to pictures being shown. By Mr. Hodgdon's generosity book-marks with lists of such books were printed and distributed with the programs.

The Library has continued to co-operate with the Federal Relief. Much clerical work in the compilation and mimeographing of book lists has been done by ERA and WPA workers under the direction of Miss Carleton. Four volumes of the town history material compiled under Mr. W. E. Eaton have been bound. The Foster collection of music, the gift of the Stephen A. Foster Foundation, has also been bound.

The Library has been the recipient of many gifts as in other years. To Mrs. Junius Beebe for the beautiful Christmas decorations, to Mr. Harris M. Dolbeare and Mr. Gardner E. Campbell for space in the Wakefield Daily Item, to the members of the Federal Transient Camp who showed their appreciation of library service by the gift of a basket and wreath at Christmas, to Mr. Charles W. Hodgdon and to all other generous friends, the Trustees extend their grateful thanks.

From the estate of Mr. Willard Donnell the Town has accepted the legacy of \$500 for the use of the Library.

There have been some changes in the staff during the year. Miss Dorothy Peterson, Simmons 1934, joined the staff in January and Miss Margaret Doe, Simmons 1934, in March. Mrs. Frances Lee Merrey severed her connection with the Library in April and in July Miss Olive Eaton resigned to become the bride of Mr. Thatcher Avery.

A real grief came to the patrons of the Library with the death of Mrs. Katherine Madden in December. For many years she had served the public loyally and her pleasant manner and personal interest had made her many friends who miss her willing service. The Trustees and the staff feel her loss keenly.

In spite of these changes in personnel, the loyalty of the staff has made it possible for the Library to function without interruption in its service to the people of Wakefield.

It has been the policy of the Trustees to keep the building and furnishings in the best possible condition at all times, believing that to be true economy. When the budget for the year was planned provision was made for renewing the water pipes. That work has been done and in addition the office and work-room have been painted and as much similar work as the budget would allow.

The published report of the committee which formed the Library back in 1856 states that the circulation for the first six months was 4135 volumes.

The circulation for the year 1935 is as follows:—

	Adult	Juvenile	Total
Main Library	118,637	41,133	159,770

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Wakefield:

The School Committee herewith submits its annual report for the conduct of the affairs of the School Department.

For the first time in several years the department has unpaid bills. These are due to the fact that the School Committee purchased materials for Federal Emergency Relief Administration work. We understand that this is the only department in town which has paid for all materials for this kind of work. Out of our appropriation we have spent \$842.79 in the High School and \$1,018.61 for the elementary schools. Because of these unforeseen expenditures we have \$786.67 as a total of our unpaid bills. It was only by practising the most rigid economy that we were able to keep the amount to this low figure.

Our expenditures for the maintenance of the school property have been kept as low as possible consistent with keeping the buildings and equipment in a proper state of repair and to avoid undue depreciation.

With the re-opening of schools in September, 1935, the School Committee put into practice a change in method of paying teachers and other school department employees, consistent with a vote taken by the Committee in the latter part of 1934. The practice of paying executives, clerks, and janitors weekly was continued. All teachers, whether on weekly or monthly payrolls, agreed to the semi-monthly system, payable on the 15th and 30th of each month, in twenty equal payments from September 1 to June 30 of the school year. In the succeeding weeks various complications arose because of conflict with rulings by the Town Accountant, with the result that on January 16, 1936, the Committee rescinded all previous votes and voted to establish a weekly payroll system for all School Department employees, beginning January 27, 1936. Although final action took place in 1936, this vote is included to make the record complete.

The problem of the crowded condition of the High School building, even with morning and afternoon sessions, and disposal of the central eighth grades in the afternoon session, if this condition is to be relieved, continues to occupy the attention of the Committee and awaits a definite solution, or attempted solution; but the Committee definitely has voted to abolish the centralization of the eighth grades in the High School building in the afternoon at the close of the school year in June, 1936. It now has under consideration the question whether to re-distribute the eighth grade pupils to the grade schools in their respective home districts, or to centralize them in one or more of the more central grammar school buildings.

In this connection, Charles J. Peterson, principal of the High School, reports that it has been necessary to refuse many pupils permission to take various desired subjects. For example, it has been necessary to have certain typewriting classes in the afternoon, necessitating return to school in the

afternoon by pupils attending the morning session. Whereas, thirty-five is the normal number of pupils to a class, some classes now have more than fifty pupils. The long-standing inability of teachers to give pupils extra help either morning or afternoon continues, because under the conditions of recent years some teachers teach in the forenoon and afternoon. It is hoped to remedy this condition next September after the afternoon session is changed by the elimination of the eighth grades.

Principal Peterson recommends that with the removal of the eighth grade pupils from the High School building in September, 1936, the freshmen and the commercial divisions of the sophomore class constitute an afternoon session, with the remainder of the sophomores and the entire senior and junior classes attending in the forenoon. As it is necessary to have sophomore typewriting classes in the afternoon, he believes it would be a logical solution to have all sophomore commercial pupils in the afternoon session. This re-arrangement would result in a group of about seven hundred pupils in the forenoon and five hundred pupils in the afternoon session, the number in each case being considerably less than the capacity of the building. There are now eight hundred and fifty six pupils in the morning session, practically filling the building, in comparison with six hundred and twelve in the entire school when it was occupied in 1923. In the twelve years that have elapsed, the High School enrollment has increased nearly one hundred per cent. The present enrollment by classes is as follows:

	Boys	Girls	Total
Post Graduates	8	9	17
Seniors	122	134	256
Juniors	126	136	262
Sophomores	170	151	321
Freshmen	177	175	352
	603	605	1208

Late in the summer of 1935 it was brought to the attention of the School Committee that if the town decided to provide additional school accommodations and take advantage of a forty-five percent grant from the government under the Public Works Administration Plan, immediate action would be necessary. After conferences with the School Building Committee appointed in 1932, which was still in existence, and with the Finance Committee, steps were taken to bring the question before a town meeting. The main purpose of this action was to enable the citizens to decide whether or not to take advantage of a federal grant, rather than to suggest any particular building program at that time, but the Committee did take the position that if any additional school accommodations were to be provided it would re-affirm its stand taken in 1932 in favor of a separate intermediate school building, in which would be housed the centralized eighth grades and the High School freshmen. The Committee was divided, five to one, on this question, one member favoring an addition to the High School building for High School pupils

only and the return of the eighth-grade pupils to their respective grammar school districts. A special town meeting was held October 14, 1935, and resulted in rejection of any and all plans for additional school accommodations, either with or without federal assistance.

Although the situation is not to be construed as more serious than in other large high schools, particularly high schools operating under a two-session plan, the School Department has been obliged to give attention to the problem of stealing by pupils from each other or from the school, and regulations have been adopted to provide suspension for the first offense and expulsion for a repetition thereof, due care being taken to protect pupils from unjust accusations.

As the two-session plan makes it necessary to assign two students to each locker, and as pupils are careless with locker keys, the problem of finding the guilty has been aggravated, but it is believed that the drastic regulations, accompanied by the apprehension of the guilty in two cases of stealing, is having favorable effect.

Although handicapped by lack of text books and other materials, purchase of which could not be made from the restricted 1935 budget, Miss Vivian Dix, the new supervisor of music, who began her duties in September, has made favorable progress. The first Girls' Glee Club in years has been organized with seventy members. The Boys' Glee Club in existence many years, continues under Arthur A. Fulton's supervision. There is lack of room for desired classes in harmony and music appreciation, but this may be provided when the eighth grades are removed from the High School building. The Boys' Bands continue to do worthwhile work under the leadership of Joseph A. Fanck. For the general teaching of music, the School Committee has begun the purchase of new music books for the grades, and this will be continued over a period of time, until depleted or out-of-date music books are replaced. Buying of records to provide listening lessons for the development of music understanding and appreciation has been authorized.

In the primary grades special emphasis is being given to the necessity of helping each child find and develop his singing voice, and in the upper grades to the introduction of a definite plan for mastery of the score.

Opportunity for an elective chorus period in the ninth grade is being worked out. All other offerings which are after school activities are optional. They include orchestra, senior band, junior band, boys' glee club, and the newly-formed girls' glee club and string ensemble. Most high schools provide opportunities in school hours for choral music and at least one elective course beside the musical organizations, which are extra curricula activities. The School Committee and the executive officers concerned are reviewing the problem with a prospect of remedying conditions another year. Also under consideration is the question of class violin instruction which is greatly needed for the future development of the orchestra, whose string section is at present so small as to be overbalanced

by the other sections were it not for the interest of several violinists who are former graduates.

During the year the Committee has instructed teachers to restore to active use the multiplication table system in conjunction with other methods of teaching number work.

Arrangements have been made to have J. Edward Hatch, attendance officer and custodian of buildings, assume more responsibility and duties in connection with the physical administration of the school buildings and purchasing of supplies, to release the superintendent for more attention to strictly educational work.

The extent to which the various school buildings and High School Athletic Field are used for educational and civic purposes is indicated by the fact that the Committee has authorized the use of the High School gymnasium for Federal Emergency Relief Administration projects, use of the High School auditorium for National Education Week meetings sponsored by the American Legion, use of the High School auditorium for Lions-Rotary clubs entertainment to raise funds for dental, optical and surgical work for needy children; use of rooms in the High School for University Extension Course for Federal Emergency Relief Administration cooking demonstration; use of rooms in the High School building for Chamber of Commerce Business Institute, and the Well Baby Clinic of the Visiting Nurse Association; use of Walton Field by American Legion for Drum Corps Competition, by Y. M. C. A. for amateur aviation meeting, and by Recreation Commission for baseball league; use of rooms in old High (Lafayette) School for Federal Emergency Relief Administration sewing projects, and to Board of Health for anti-rabic clinic for dogs. Auditoriums in the Greenwood, Montrose and other schools have had the usual use for Parent-Teacher Association events and civic purposes.

Other acts of the Committee, of public interest, were as follows:

Authorized the installation of a fan to blow heat into the corridors at the Warren School.

Authorized the installation of weather-strips on all windows on the east side of the High School building.

Restored manual training and sewing for certain divisions of the eighth grades whose pupils are less adapted for regular academic work.

Voted not to rent the High School auditorium for any event requiring advance stage preparation, because of interference with school sessions.

Established the tuition rate for the year 1935-1936 as required by law.

For elementary schools	\$63.35
For High School	91.47

Voted unanimously to indorse the re-appointment of Payson Smith as State Commissioner of Education.

MISCELLANEOUS FACTS

The following are facts of public interest condensed from reports of elementary school principals:

For the first time in several years the work of the seventh division in the central eighth grades has been arranged to give the boys manual training and the girls household arts. It has proved effective, but more would be beneficial. A larger number of over-age pupils in the eighth grades has made the class in manual training so large that it has been necessary to divide it, thus allowing each class only one hour.

The work in character training has been continued in several schools, with monthly assemblies.

Safety has been stressed by means of posters, dramatics and talks,

There may be some significance in the fact that several parents in requesting that pupils be changed from one room to another have definitely expressed preference for older and more experienced teachers.

There is no indication that pupils have been influenced by discussions in the press of the teachers' oath and flag salute legislation, which has been emphasized in the past year. All teachers took the oath without question. The School Department has purchased flags for rooms in the High School, and the Woman's Relief Corps has given five silk flags to the Lincoln School.

Included in the work of the attendance officer has been investigation of twenty-one cases of pupils who had left High School, collection of school books and property taken home by them, and home calls outside of school hours and days. The varied character of the work of the attendance officer is indicated by the following summary:

Sickness	124

During 1935, three teachers retired after many years of conscientious service to the school children. They were C. Albert Jones, supervisor of music; Miss Mary I. Hawkins, Lincoln School ; and Mrs. Ida G. Low of the Central Eighth Grades.

IN MEMORIAM

Miss Ethel A. Rodgerson was elected in 1925 and was assigned to the Franklin School. In September, 1935, she was transferred to the Lincoln School. Her many years of patient, faithful and conscientious work endeared her not only to the pupils who passed through her room, but to all those who came into contact with her both within and without the corps of teachers. On November 29, after an absence of only a few days from her class, she passed away at the Riverbank Hospital. Wakefield is glad to have had the services of Miss Rodgerson for so many years.

REPORT OF SCHOOL PHYSICIAN

The health of the pupils has been good with no epidemic or marked incidence of illness. Diphtheria has practically disappeared as a health problem as a result of general immunization of children of school age, though we still need the warning that "eternal vigilance is the price of safety". We have had low incidence of scarlet fever, measles and whooping cough.

The usual complete physical examination has been made of pupils in the first, fifth and ninth grades and the special classes, also all those in any grade that had not been examined previously, and the results recorded on the regular health cards. Defects regarded as of sufficient importance to be called to the attention of the parents were as follows: Defective teeth, 299; diseased or enlarged tonsils and adenoids, 254; parasitic skin disease, 17; disease of heart, 11; underweight, 15; enlarged glands, 5; inflamed eyelids, 3; nasal discharge, 4; no vaccination, 24; miscellaneous, 4.

All other pupils in school have been examined for defects of teeth and throat, and 456 notices of defective teeth and 365 of diseased tonsils and adenoids were sent to parents. As a rule no notice was sent on defective first teeth unless the condition was serious. As stated in a previous report, these were omitted because parents as a rule pay no attention to such notices, though care of the first teeth often results in better permanent teeth. There is some evidence of neglect of the teeth on account of hard times and a considerable number of parents have reported that nothing had been done to teeth or tonsils because they could not afford it. We found no unusual evidence of malnutrition or lack of clothing on account of poverty.

The pupils immunized against diphtheria in 1934 were tested and those still susceptible were re-immunized. Only ten needed it, however.

Immunization was offered to all in the first three grades and 250 were treated. These will be tested in 1936. Toxoid was used instead of toxin-antitoxin except in children over ten years of age.

The skin test for tuberculosis was offered to pupils in the sixth, ninth and twelfth grades. One hundred sixty-four accepted and of these 30 were reported as positive and notice sent to the parents.

Many pupils have been examined for suspected contagious or parasitic diseases and we excluded from school those thought to be a menace. First aid has been given to pupils injured on the school property when requested. The boys on the football squad have been examined, also the basketball squad and the track team. All girls who have signified intentions of trying for the basketball, hockey, or other competitive sports have been examined, and others who complain of fatigue or show evidence of strain from ordinary physical training classes. The School Physician has

attended the home football games as was requested and has examined and treated boys injured at football upon request of the coach, though it is specifically stated on the consent cards that the school department assumes no liability for injuries.

The Board of Health kindly loaned Miss Nellie B. Russell to assist the diphtheria and tuberculosis program.

Besides the routine school work the School Nurse gives the following as special visits:

Children examined for cleanliness	24
Children receiving first aid	90
Boys injured at manual training	16
Burned in chemistry class	4
Children taken to North Reading to be X-rayed	12
Children taken to Waltham to be X-rayed	5
Children taken to Fernald School—admitted	1
Children taken to Psychopathic Hospital	1
(Later admitted to Danvers Hospital—adult type of insanity)	
Homes visited	240

PHYSICAL EDUCATION

The following statements are taken from the report of the physical education department:

We are trying through graded lessons which begin with rhythms, stunts, or simple games and lead up to group co-operative games or individual work, to teach the child certain fundamental skills which will increase his or her agility, but also provide some form of activity which he or she may use in after school life.

With these activities we also stress the need for proper food and amount, the need for certain amount of sleep, the need for proper clothing, and the need for certain amount of education with regard to safety and first aid.

In spite of the fact that pupils are not examined for posture defects, we are giving simple corrective exercises to the group which will help strengthen those muscles which help to maintain good posture. There is need for individual work. We believe that if it would be possible to record certain health achievements, such as height and weight to show gains or losses and send same home, it would help inspire the child to put forth his or her best efforts.

The following figures indicate the number of girls and boys interested in our inter-class or intra-mural sports program. This does not include the number of boys who were members of varsity squads.

Girls' Field Hockey	80
Girls' Basketball	92
Girls' Bowling	75
Girls' Golf*	41

* The girls who were members of this group were fortunate in having Leslie Cottrell, the professional at the Bear Hill Golf Club, as instructor.

Boys' Football	78
Boys' Basketball	275
Boys' Baseball	80
Boys' Track*	70
Cross Country*	40

*These sports, the interclass events, are conducted along with the regular practice. Of course all of these boys did not engage in inter-scholastic competition.

PENMANSHIP SUPERVISION

The interest which the pupils taken in penmanship under the leadership of their supervisor is shown by the number of certificates given. The following tables show the number of certificates given, first by schools and then by grades:

By Schools	
Greenwood	196
Franklin	198
Lincoln	207
Warren	107
Montrose	94
Woodville	67
Hurd	47
West Ward	34

By Grades	
Grade 1	172
Grade 2	126
Grade 3	120
Grade 4	139
Grade 5	131
Grade 6	137
Grade 7	125

This makes a total of 950 certificates given.

BUDGET

The appropriation asked for 1936 is \$260,700.00. The receipts due the School Department are estimated to be about \$39,800.00 from the following sources:

Commonwealth of Massachusetts, on account of teachers	\$ 22,000.00
Commonwealth of Massachusetts, tuition, state wards	1,800.00
City of Boston, tuition, city wards	4,024.01
Town of Lynnfield, tuition	10,715.24
Town of Stoneham, tuition	190.95
Individuals, tuition	676.12
Miscellaneous	481.01
	<hr/>
	\$ 39,887.33

By deducting these receipts the net amount needed for school purposes to be raised by local taxation is \$220,812.67.

CLASS SONG

ALMA MATER

Softly now the daylight's dying,
Trees and hills cast shadows long.
Gentle winds through woods are sighing,
Wafting back our farewell song.
Cherished scenes to us are calling,
As we close this happy day.
Friendship's gaze upon us falling,
At the parting of the way.
Night has settled; stars are shining,
And our dreams grow deeper, too.
In our hearts fore'er entwining,
Loving thoughts, Dear School, of you.
